

FLOOD SAFETY

During and after a flood

Go to higher ground as soon as possible in absence of an evacuation plan or instruction

Never attempt to cross or swim in any flowing water during a flood

Stay away from bridges and river embankments

Don't walk or drive in the flood water

Stay away from underpasses as it can be filled with water

Stay away from falling power lines because the water must be electrically charged

If your vehicle stalls in water, abandon it

Do not play near or swim in flood water

Don't consume fish or water species left by flood

Make sure that food and drinking water is not contaminated
